

EXPOSURE MEDICAL MANAGEMENT

Rocky Mountain's Poison Center offers a full suite of specialized solutions for support of exposures to industrial and household chemicals, agro-chemicals, substances in the workplace and consumer products or drugs. Our goal is to optimize patient care by providing expert guidance when it matters most, ensuring safety and reducing risk and where possible, reducing further medical intervention.

We provide 24/7/365 exposure management services, and Health Information services are designed to support sudden outbreaks of an infectious disease or an ongoing public health crisis.

The Rocky Mountain Poison Center is a team of experts comprised of Registered Nurse and/or Registered Pharmacist-Certified Specialists in Poison Information, Poison Information Providers, Board Certified Medical and Clinical Toxicologists, and Physician Toxicology Fellows-in-Training who specialize in emergency medicine and medical toxicology. We triage at initial contact to ensure the correct level of care and support. The team is integral in educating and training the next generation of providers.

Why Rocky Mountain Poison Center

- With roots going back to 1956, the Rocky Mountain Poison Center is one of the largest poison centers in the United States.
- We serve the general public and health care providers in multiple states through the national Poison Helpline (1-800-222-1222), safeguarding over 11 million people.
- Our team is comprised of toxicology experts.
- We developed the first Medical Toxicology Training Program in 1976.
- We support an OMNI-Channel Contact Center (text, chat, email, video).
- We provide 24/7/365 coverage.
- We accommodate multiple languages.
